3 The estimated receipts from octroi which has been newly introduced into the Municipalities

of this District in the
current year comprise
the moiety of the
collections on Cocoanuts
Betel leaves and
Tobacco and of a duty
on cloth. Sugar, Jaggory,
ghee, oil, and sheep
and goats are added
to the list of taxed
articles in the three
large Municipalities
of Kolar, Chintamony
and Chickballapur
The proposed duty on
Timber and Metals
being expected to
produce but little
the Govt is requested
to give it up in all
the Municipalities.

4 The chief source
of income in all the
Municipalities is the
Mohtarfa or Tax on
Houses and Trades. The
Estimate of this shows
a considerable decrease
as compared with that
of last year in the
Kolar Municipality
in which the whole
amount of the tax
continues to be
enforced

the crease is
explained It may
be due to the former
unequal or heavy
incidence of the Tax
which is now being
revised under the
instructions conveyed
in Proceedings No 3362-73 of
27th September 1879. Mel 161

5. The effect of the orders
referred to in the
other Municipalities
is to give them newly
a moiety of the
Moohturfa Collections
on the Trades and
Carts whilst the moiety
of the Tax on Houses
shews a loss or gain
in Comparison with
the former Municipal
Collections, according
as the rate of the
former Municipal Tax
was high or was merely
a light Kachara Teriqe
or cess for Sweeping
charges. The Estimate
of the income from
House Tax in Sreenevasapura
and Mulbagal shews
an unduly large falling
off, whilst there is an
increase in Chintamony

3. The estimated receipts from octroi which has been newly introduced into the Municipalities of this District in the current year comprise the moiety of the collections on cocoanuts, betel-leaves and tobacco and of a duty on cloth. Sugar jaggory, ghee, oil, and sheep and goats are added to the list of taxed articles in the three large Municipalities of Kolar, Chintamani and Chikballapur. The proposed duty on timber and metals being expected to produce but little the Deputy Commissioner is requested to give it up in all the Municipalities.

4. The chief source of income in all the Municipalities is the mohatarfa or tax on houses and trades. The estimate of this shews a considerable decrease as compared with that of last year in the Kolar Municipality in which the whole amount of the tax continues to be enjoyed by the Municipality. The reason of the decrease is not explained. It may be due to the former unequal or heavy incidence of the tax which is now being revised under the instructions conveyed in Proceedings No. 3362-73—Ml. 161 of 27th September 1879.

5. The effect of the orders referred to in the other Municipalities is to give them newly a moiety of the mohatarfa collections on the trades and carts, whilst the moiety of the tax on houses shews a loss or gain in comparison with the former Municipal collections, according as the rate of the former Municipal tax was high or was merely a light kachara terige or cess for sweeping charges. The estimate of the income from house tax in Shrinivaspur and Mulbagal shews an unduly large falling off, whilst there is an increase in Chintamani, Sidlagatta and Chikballapur, regarding which some explanation is required.

6. The following table exhibits the details of the estimated expenditure :—

Details of Expenditure.	Municipalities.

7. The collection charges consist of a remuneration of 5 per cent on the octroi collections paid to the collecting officials. The conservancy charges consist of the cost of carts and sweepers entertained according to local requirements of the several Municipalities, a Daroga on a salary varying from 5 to 15 rupees being employed only in the larger Municipalities.

8. The details of original works proposed are noted in the margin. Funds for the same are available either from current collections or from the cash balances on hand. The proposed outlay both on original works and repairs is approved, subject to estimates and notifications of sanction being submitted in the usual course.

9. It is observed that the $\frac{2}{3}$rd share of the charges of the Chikballapur Dispensary, debitable to District Funds, was estimated in the District Fund Budget at Rs. 192, whilst the $\frac{1}{3}$rd share payable by the Municipality is now estimated at Rs. 156. This calls for explanation.

10. The estimated expenditure under "Miscellaneous," it is presumed, contains the necessary provision for the destruction of snakes in all the Municipalities.
